SCHOOL NEWS:

.Another question that Denise and I are hearing that might be good for me to address concerns the snow days. "Will we need to make up any of the snow days when we were out of school?" The state department requires every school building, elementary and high school, to deliver 1116 instructional hours in a school year. We have carefully counted the instructional hours at each building. Each year when we build the calendar, we try to make sure we have enough cushion to absorb some snow days. At this point we do not need to have any make up days for the snow days we were out. Thank you, Mr.
